

# PASSION EVERY DAY. **ESY!**

## Working student product management (m/f/d)

Do you want to help us further develop our products and thus make the buildings of the future even more energy efficient? Then join our product management team!

### YOUR TASKS

- Creation and maintenance of a competitive database for market analysis
- Analysis of competitive products in terms of functions, features and positioning
- Support in the creation of training materials
- Collaboration in the execution of product trainings and workshops
- Supporting the team in day-to-day product management tasks
- Close cooperation with various departments such as development, marketing and sales

### YOUR PROFILE

- Enrolled student in a relevant field of study (e.g. economics, business administration, engineering or similar)
- Interest in product management and product analysis
- Analytical thinking and structured way of working
- Very good knowledge of written and spoken English (mandatory)
- Good knowledge of German would be good, but not mandatory
- Confident handling of MS Office applications, especially Excel and PowerPoint

### ABOUT ESYLUX

Intelligent, energy-efficient buildings that improve the quality of life of humans and at the same time protect the natural resources, are all of our passion. We develop product solutions from an individual sensor to comprehensive lighting systems with a biologically effective light. Our quality is in the detail, our perspective global. We enjoy the implementation of new technologies, rely on the creativity of our employees and a motivating corporate culture.

### WE OFFER

- A varied job and an international working environment with exciting projects
- Flexibility in working hours (approx. 15-20 hours per week) incl. the possibility of mobile working
- A variety of benefits, including cooperation with many fitness & wellness facilities
